

WHY PROFESSIONAL DEVELOPMENT?

Professional Development

- Ensures your capabilities keep pace with the current standards of others in the same field.
- Ensures that you maintain and enhance the knowledge and skills you need to deliver a professional service to your customers, clients and the community.
- Ensures that you and your knowledge stay relevant and up to date. You are more aware of the changing trends and directions in your profession. The pace of change is probably faster than it's ever been – and this is a feature of the new normal that we live and work in.
- Helps you continue to make a meaningful contribution to your team. You become more effective in the workplace. This assists you to advance in your career and move into new positions where you can lead, manage, influence, coach and mentor others.
- Helps you to stay interested and interesting. Experience is a great teacher, but it does mean that we tend to do what we have done before. Focused CPD opens you up to new possibilities, new knowledge and new skill areas.
